for print and packaging

Webinar Program 2026

Webinar Program 2026

We are pleased to present our new webinar program for 2026. Here you will find our current training offers and their respective contents, learning goals, and dates. Our training sessions are suitable for both experienced C3 users, who would like to learn to use new aspects of C3, as well as entry-level users. The webinars are interactive workshops – each participant directly puts their new knowledge into practice on their own computer in their training environment.

That being said, a PC with a microphone (and camera if desired) and stable internet connection are necessary in order to participate. After registering for the webinar, you will receive instructions from us on how to set up and test the training environment.

Language

- The webinars are held in either German or English. The language depends on the preferred language of the majority of the participants and will be communicated two weeks before the webinar if it differs from the language you signed up for.
- If you wish to cancel the webinar due to being held in a different language than you signed up for, it is possible to do that within one week of the webinar without paying any processing / cancellation fees.

Prices and Services

- Participation fee of per webinar and participant: 550 Euro excl. VAT
- The second participant from the same company gets a discount of 50 %.
- Each participant receives detailed instruction material.

Workflow

- The webinars take place as video conferences. Each participant is able to access from their own training environment.
- To ensure the best possible learning experience, the number of participants is limited to eight people respectively four companies.
- The webinars are led by our employees, who are already familiar to you from our hotline or consultancy services.
- All webinars are planned in a way that leaves enough time for questions and offering assistance with individual problems.
- Webinars start at 9 am CET.

Sign Up

Registrations are only possible via our [website](#). After successful registration, you will receive an e-mail confirmation. For all further communication, we ask you to use this e-mail as a reference.

Webinar Dates Overview

Webinar	1st term	2nd term
Administration C3	Thursday, Jan. 22, 2026	Thursday, June 25, 2026
Business Intelligence (Views / Analysis / Mobile BI)	Thursday, Feb. 05, 2026	Thursday, Sept. 17, 2026
Report Adjustment / Report Framework	Thursday, Feb. 26, 2026	Thursday, Sept. 24, 2026
Customizing / Power-user	Thursday, Mar. 05, 2026	Thursday, Oct. 01, 2026
Shop Floor Control / Actual Costing	Thursday, Mar. 19, 2026	Thursday, Nov. 12, 2026
Customer Relationship Management and Document Management	Thursday, Apr. 16, 2026	Thursday, Nov. 19, 2026
Purchasing	Thursday, Apr. 23, 2026	Thursday, Nov. 26, 2026
Estimation / Product Configuration (Basic)	Thursday, Apr. 30, 2026	Thursday, Dec. 03, 2026
Estimation / Product Configuration (Advanced)	Thursday, May 21, 2026	Thursday, Dec. 10, 2026
Basics of Label Production	Thursday, June 11, 2026	Thursday, Dec. 17, 2026

Contact Person

If you have any questions regarding signing up or the individual webinar, please contact our back office team directly at +49 7141 79155 – 0 or via backoffice@theurer.com.

Yours Sincerely,

Sabrina Mauch & Lena Kienzler

Administration C3 (Installation, Database Backup, Update)

Learning Goal:

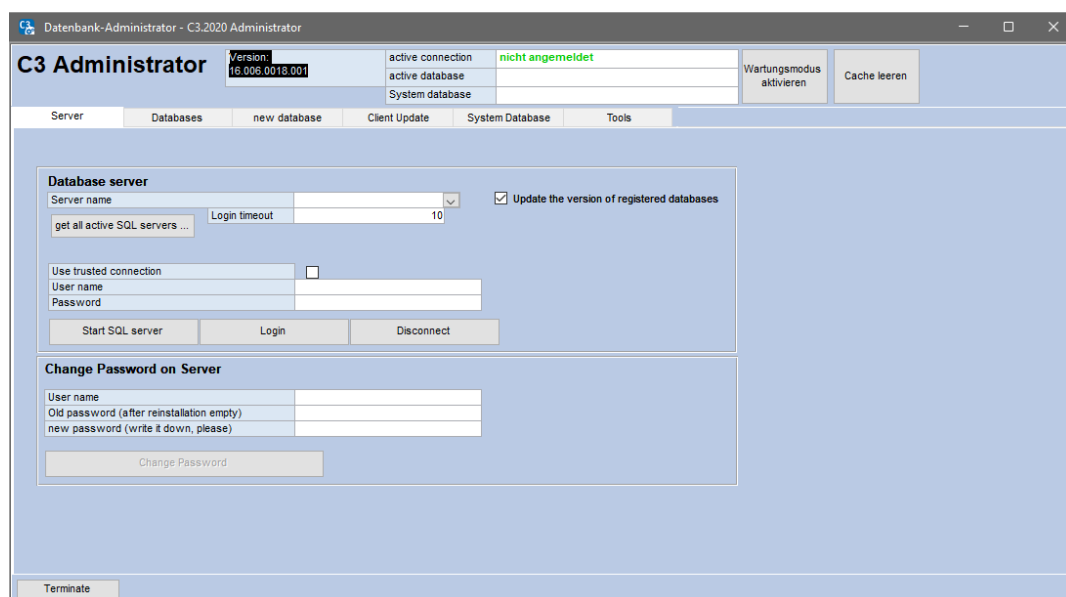

The installation of C3 on individual clients and terminal servers.

The creation of a testing environment and execution of an update. Generate a backup plan for C3.

- | | |
|---|---|
| ☐ Installation <ul style="list-style-type: none"> ▪ System requirements ▪ Installation ▪ Special features for terminal servers | Duration: 1 day

Participants: IT employees or user with good knowledge about C3 and data processing (DP) |
| ☐ Security <ul style="list-style-type: none"> ▪ Establish a database backup ▪ Restore from database backup ▪ General data backup | Knowledge: Installation of application and networks

Dates: Thur., Jan. 22, 2026
Thur., June 25, 2026 |
| ☐ Update <ul style="list-style-type: none"> ▪ Workflow of a complete C3 update | |
| ☐ Testing environment and resolving problems <ul style="list-style-type: none"> ▪ Creation of a testing environment ▪ Resolving the most common problems | |
| ☐ Basic operation server service <ul style="list-style-type: none"> ▪ Setup ▪ Status ▪ Logging | |

Business Intelligence (Views / Analysis / Mobile BI)

Learning Goal:

Create interactive reports as lists and charts as well as dashboards in the desktop and browser platform.
Map individual workflows using views / dashboards. Working with next-generation user interfaces.

☐ Introduction to the C3 data structure

Duration: 1 Day

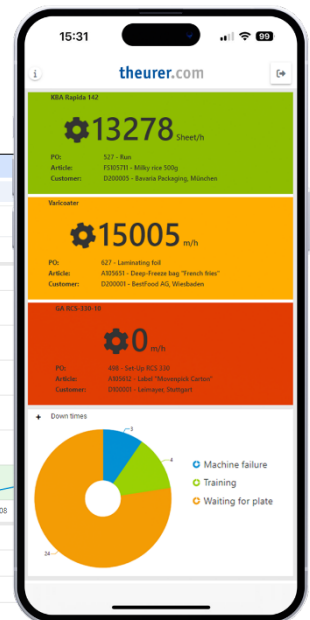

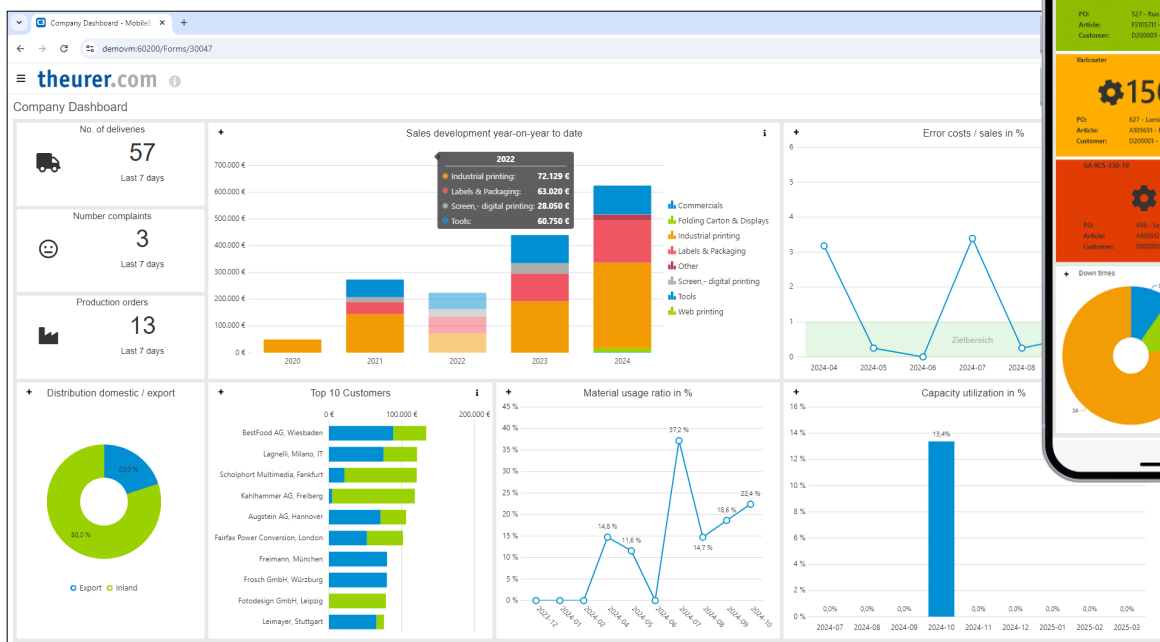

☐ C3 views / dashboards (analysis)

Participants: C3 users with great user knowledge and good DP knowledge

- General possibilities and use
- Copy existing views / dashboards
- Create new views / dashboards
- Import / export views / dashboards
- Prepare data graphically
- Basic training BI functionalities
- Dashboard types
- Exercices

Knowledge: Good user knowledge in C3. SQL knowledge is required. Knowledge of SQL management studio must be proven. Knowledge of MS Access or Excel are recommended. VBA knowledge (or other programming languages) as well as a basic knowledge are required.

Dates: Thur., Feb. 05, 2026
Thur., Sept. 17, 2026

Report Adjustment / Report Framework

Learning Goal:

Editing and creating printable reports from C3.

Possibilities of adjusting reports with the report framework.

- General
 - Prerequisite to edit reports
 - Introduction to the C3 datastructure
- Reports
 - General possibilities and use
 - Edit existing reports (add new fields, move existing fields, change font, ...)
 - Inclusion of reports in C3 via the printing process
 - Report framework
 - VBA functions

Duration: 1 day

Participants: Developers; C3 users with good user knowledge and good IT comprehension

Knowledge: VBA knowledge (or programming languages) and basic knowledge of Visual Studio is required. SQL knowledge is a prerequisite. SQL Management Studio knowledge is required. Office knowledge in Access or Excel is also an advantage. Good user knowledge in C3.

Dates: Thur., Feb. 26, 2026
Thur., Sept. 24, 2026

The screenshot displays the C3 Report Framework interface. On the left, a report design for 'Order' is shown, featuring a table with columns for 'IL', 'Code', 'Art.Descr.', 'Qty.', and 'Pr'. The report includes a 'BNR Header' and a 'POS Header'. The main body of the report contains a table with data rows. On the right, the VBA code for the report is visible, showing a 'Report_Error' procedure and a 'Report_Open' procedure. The code includes comments in German and uses the 'goLogin' object to access system constants and configuration values.

Customizing / Power-user

Learning Goal:

Fit C3 better to company individual demands. Manage users and rights, configure user interfaces individually and extend the options bar with your own entries (views, reports).

- ☐ User / Groups
 - Create users and user groups
 - Special configuration for users or groups
- ☐ Rights
 - Right distribution in C3 central
 - Right distribution in user / group management
- ☐ Customizing user interfaces
 - Mandatory fields and rights
 - Masking and renaming of fields
 - Configuration of the options bar
 - My Central
- ☐ Systemwide settings
 - Introduction in adaptivity

Duration: 1 day

Participants: C3 User /
C3 Power-user

Knowledge: Good user knowledge in C3

Dates: Thur., Mar. 05, 2026
Thur., Oct. 01, 2026

The left screenshot shows the 'User Administration' window. It has a table with columns: No., Name, Group, and Active. The table lists several users, including '106 Administrator', '111 AHaller', '117 AMüller', '109 BCiller', '124 Bobst F&K 20S', '114 BRichter', '102 DemoUser', '105 DemoUserEN', '116 DemoUserKalk', '125 DemoUserMobile', '113 E. Metzger' (highlighted), '119 ETimowitsch', and '112 GSchleicher'. Below the table, there are tabs for 'User', 'Permissions', 'Target working hours', and 'Human resources planning'. The 'User' tab is active, showing details for user 'E. Metzger' (ID 113), including group 'ADM', salutation 'Herr', and contact information.

The right screenshot shows the 'Administer Central Views and Entries' window. It has a table with columns: No., Name of view, Type, It., User, Group, Knoten, Description, and Pfad. The table lists several views, including '503618 Production plan by resource' (highlighted). Below the table, there are tabs for 'Entry', 'Columns', 'Parameter', 'SQL', and 'Authorisations'. The 'Entry' tab is active, showing a detailed configuration for the selected view. It includes fields for 'Field content (SQL-name)', 'Display', 'Data-type', 'Field width', 'Appearance', 'Orientation', 'Format', 'Visible', and 'Sum'. The configuration for 'Production plan by resource' shows various fields like 'BETR_BNR', 'ZNR_ALPHAN', 'IDRessource', 'KNR', 'Matchcode', 'Bezeichnung1', 'Bezeichnung2', 'SollMenge', 'ProdMenge', 'GUT_STK', and 'ME'.

Shop Floor Control / Actual Costing

Learning Goal:

Prepare your company and your C3 for the implementation of Shop Floor Control (SFC).

Oversee SFC in daily business and step in if necessary.

- ☐ General
 - Master data for SFC in C3
 - Preparing procedures for use
 - Tips for every day working
- ☐ Data gathering
 - Recording of labor time
 - Recording of actual time and material consumption
 - Manual and unplanned bookings
- ☐ Correction of bookings
 - Control of recorded times
 - Typical exceptions
- ☐ Assessment of bookings
 - Production, auxiliary and down times
 - Post calculation of production orders

Duration: 1 day

Participants: C3 User /
C3 Power-user

Knowledge: Good C3 user knowledge

Dates: Thur., Mar. 19, 2026
Thur., Nov. 12, 2026

Customer Relationship Management and Document Management

Learning Goal:

Better transparency about customers, processes and documents in the sales department.

Independent planning and execution of marketing campaigns.

☐ Processes

- General functionality
- Attributes / contacts
- Create new processes
- E-mail links

☐ Follow-Up

- Implementation of follow-ups in business processes

☐ Campaign planning

- Approach
- Address selection
- Assessments of campaigns

☐ TAPI-Connection

☐ Document templates / files

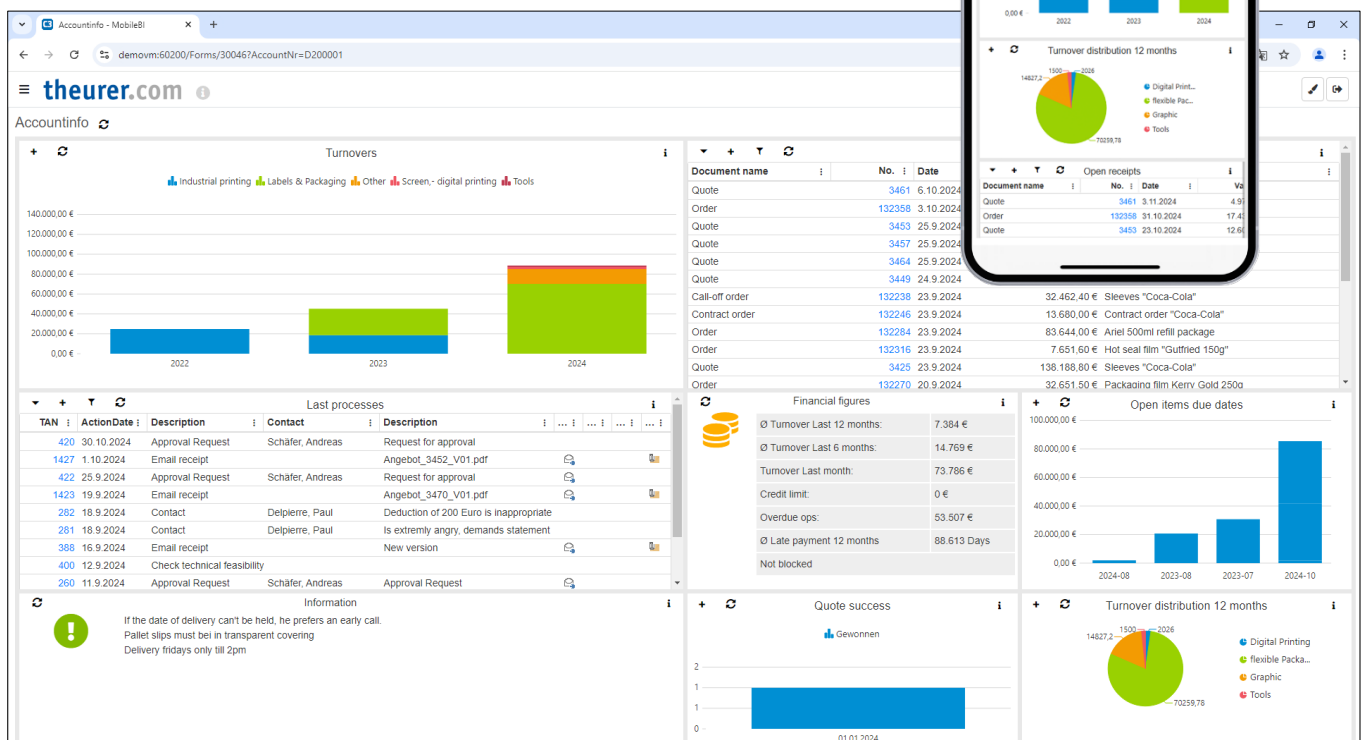

- Creating and attaching document templates
- Use of word templates with text marks
- Saving external files, pictures and documents

Duration: 1 day

Participants: Sales, marketing and DP employees

Knowledge: General C3 knowledge

Dates: Thur., Apr. 16, 2026
Thur., Nov. 19, 2026

Purchasing

Learning Goal:

Make the right decisions on the purchasing market with the help of C3 tools.

- ☐ Purchasing master data
 - Suppliers
 - Articles
- ☐ Purchasing prices and discount structure in C3
 - Price lists
 - Discount matrix
- ☐ Article analysis with the help of ABC analysis
 - Inventory and minimum stock level
 - Reorder level
 - Order related
 - Purchasing with ABC analysis
- ☐ Our CRM process management in purchasing

Duration: 1 day

Participants: Employees from purchasing department

Knowledge: General C3 knowledge

Dates: Thur., Apr. 23, 2026
Thur., Nov. 26, 2026

Estimation / Product Configuration (Basics)

Learning Goal:

Build or expand a C3 product configuration. Map your company-specific estimation logic in C3.

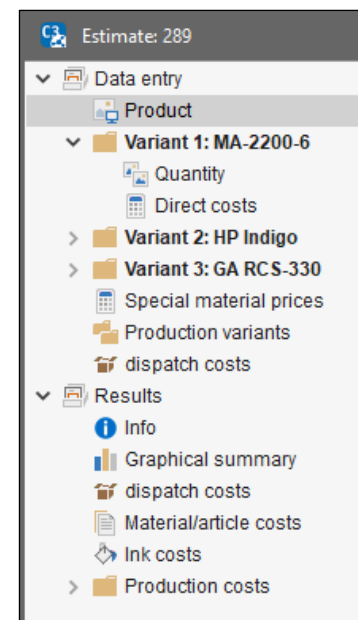

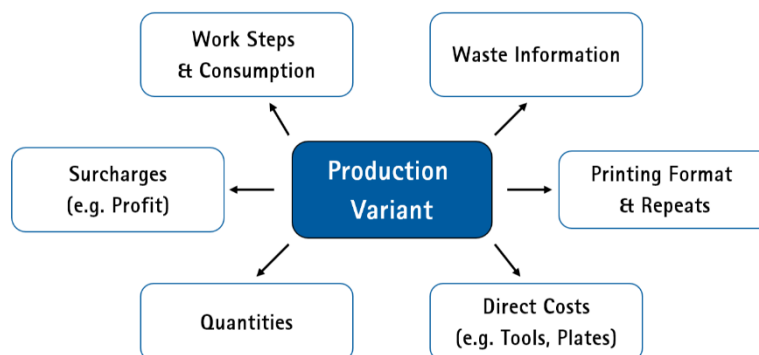

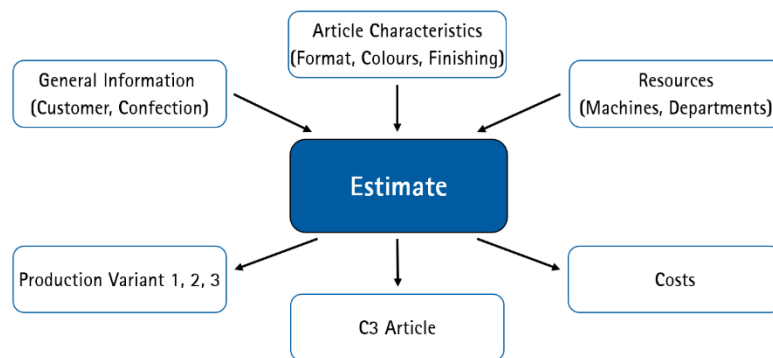

- ☐ General
 - Intended use and possibilities
 - Composition of product classes and attribute groups
- ☐ Attributes
 - Create and manage attributes
 - Define dependencies between attributes
 - Value list / define standard values
 - Text generation
- ☐ Workflow / material consumption
 - Use of workflow templates
 - Dependencies of attributes and work steps
- ☐ Problem solving
 - Common mistakes
 - Solving problems

Duration: 1 day

Participants: IT employees or users with a good knowledge of estimation

Knowledge: Comprehension of estimation in economic sense or product comprehension in technical sense

Dates: Thur., Apr. 30, 2026
Thur., Nov. 26, 2026

Estimation / Product Configuration (Advanced)

Learning Goal:

Build or extend a C3 product configuration.

Creation of efficient and individual estimation logics.

- ☐ Extra itemized costs
 - Create extra itemized costs and link them with attributes
- ☐ Decision tables
 - Purpose
 - Performance
- ☐ Manage variants
 - Activate / deactivate variants
 - Include variant logic
- ☐ Special functions
 - Include information from third party articles / material
 - Special functions
- ☐ Problem solving
 - Common mistakes
 - Solving problems

Duration: 1 day

Participants: IT employees or users with a good knowledge of estimation

Knowledge: Participation on basic estimation required

Dates: Thur., May 21, 2026
Thur., Dec. 10, 2026

The screenshot displays the 'Find Estimates' window in the theurer.com software. The 'Decision table' tab is active, showing a table with columns: Item, Standard printing, RW (Unit costs), and RW2 (cost per m²). The table contains three rows of data:

Item	Standard printing	RW (Unit costs)	RW2 (cost per m²)
10	Flexo	95	
20	Screen	110	
30	Digital	750	

The 'Characteristics' tab is also visible, showing a list of characteristics with columns: Item, Group, Key, Name, Logical group, Logical name, and View. The list includes various characteristics such as 'Sales price to customer', 'Number of dry offset plates', 'costs per plate (dry offset)', etc.

At the bottom of the window, the 'Default-value' section shows the following logic:

```

1. CHDefault Kosten je Flexoklischee (SEK.DFKOST3)
2. getdecision([LINK], 0, "KLISCHEE", "RW", "FARB.STD. = 'Flexo'")

```

Basics of Label Production

Learning Goal:

Learn the basics of label production in conjunction with C3 product configuration.

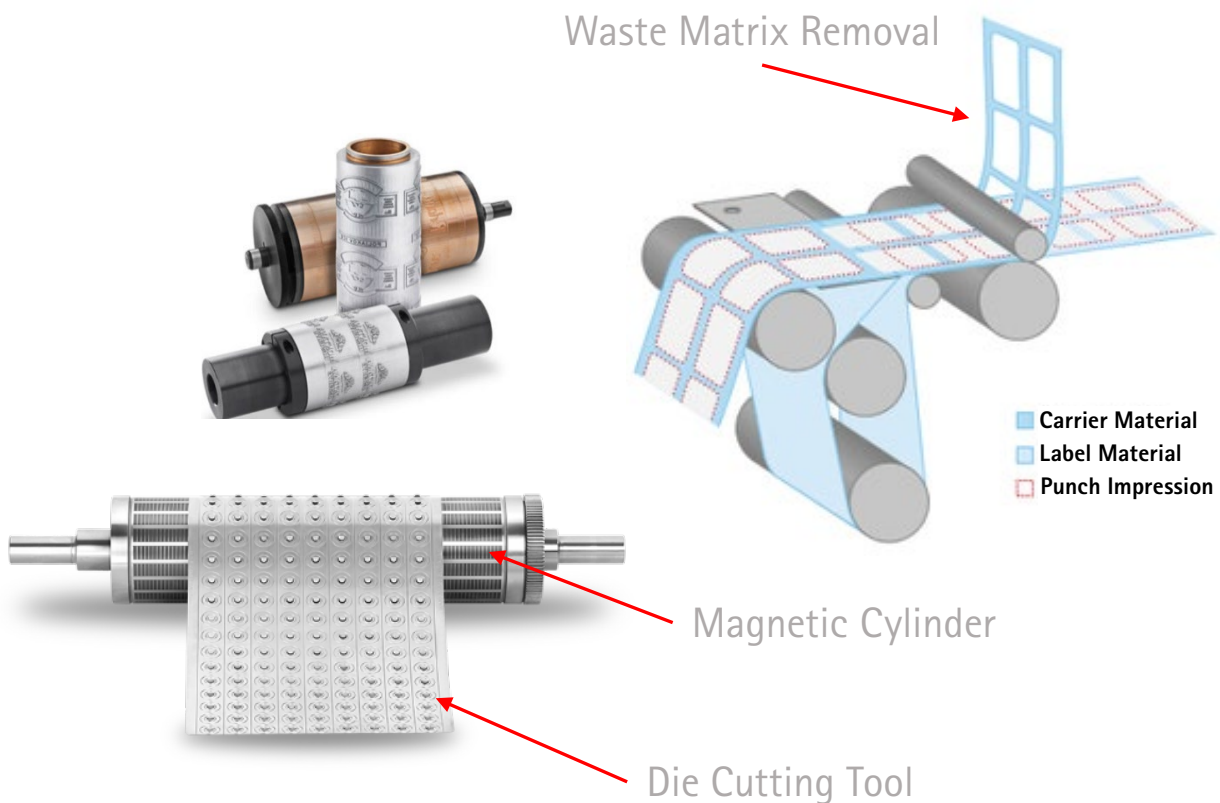

- ☐ General
 - Which sorts of self-adhesive labels exist?
 - How are they produced?
- ☐ Printing process
 - What printing processes exist?
 - Where are they used?
 - Implementation in the C3 estimation
- ☐ Raw material
 - Sorts of material
 - Structure of materials
 - Implementation in the C3 estimation
- ☐ Web structure / number up / estimation
 - What to consider
 - Implementation in the C3 estimation
- ☐ Practical examples
 - Technical projecting of a customer request
 - Estimation based on this project planning in C3

Duration: 1 day

Participants: All C3 users with interest in understanding the estimation in the economic sense and product understanding in a technical sense

Knowledge: General C3 knowledge

Dates: Thur., June 11, 2026
Thur., Dec. 17, 2026

Registration & participation conditions for theurer.com webinars

1. Conditions of Participation

theurer.com seminars and training courses are open to everyone. However, we ask you to check to what extent the seminar content and requirements correspond to your level of knowledge and learning intentions. Seminars and training courses are always conducted using the latest version of C3.

2. Booking & Registration

Please register at least 14 days before your desired webinar via the registration form on our website.

3. Participation Fees

The participation fee is per person and event plus VAT at the statutory rate. It includes event documentation and the training environment set up by theurer.com. The participation fee can be found in the individual event descriptions or the invoice. The participation fee is due for payment without deductions immediately after invoicing.

4. Discounts

You will receive a 50 % discount on the participation fee from the second participant onwards (for the second and each further participant).

5. Cancellation & Rebooking by the Participant

Cancellation (in writing only) is possible up to 11 working days before the event for a processing fee of 50 Euro plus VAT. Up to 11 working days prior to the start of the event, it is also possible to have the original attendance fee credited against a processing fee of 25 Euro plus VAT when booking another event, if the latter takes place within 6 months of the date of the original event. If the cancellation is made between the 11th working day and one day before the start of the event, half of the participation fee is due. In the event of no-attendance or cancellation on the day of the event, the full participation fee will be due. The participant is generally entitled to prove that the cancellation on the day of the event did not cause any damage at all or that the damage is significantly lower than the processing fee retained by theurer.com.

6. Withdrawal and Changes by theurer.com

theurer.com reserves the right to replace announced speakers with others and to make necessary changes to the event program while maintaining the overall character of the webinar. If it is not possible to hold the event due to force majeure or other important reasons (e.g. due to illness of the speaker or too few participants), the participants will be informed immediately. In this case the participation fee will be refunded. A claim for reimbursement of travel and accommodation costs as well as loss of working hours or other futile expenses is excluded, unless such costs are incurred due to grossly negligent or intentional behavior on the part of theurer.com. theurer.com strives to do everything reasonable in the event of any disruptions to services in order to contribute to the rectification or minimization of the disruption.

7. Copyrights

The webinar documents are protected by copyright. The reproduction, distribution or other use of the seminar documents is only permitted with written consent from theurer.com.

8. General Terms and Conditions

In addition, the general terms and conditions of theurer.com GmbH apply, unless these conditions state otherwise.
